

Handout Printing Directions

When you print your handouts, you will want to omit certain slides from the participant's copy. So, when you go to print, find the section of your screen that reads, "Print range." (See the box I highlighted in yellow.) Select, "Slides," and type the range of your printing. I suggest the following slides: **1-12,30-38,44-68,82-102,105-110,123-141,152-155,157.**
